There are a lot of great books that are worth being seen on a big screen. And I would like to tell you about "Good omens" - that I have read recently. I think that this book is one of the most appropriate to be made into a film. The narray^P is interesting for people of all ages and the theme of good and evil is always crucial. "Good omens" can teach young generation such important things like friendship^{and}, heroism, courage and revenge^P.

However, filmmakers will have to deal with some difficulties and the main one is cost. They will should find two actors which will make a good² friendly relationship on the screen. Another collor⁰ is special effects, it's² a fantastic story so about angels and demons, so which requires⁰ requires⁰ existence⁰ of some things that are impossible to create show without special effects. What is more, the book is quite big and to make a good film at⁰ film-makers⁰ will have to reduce it and try⁰ to not to miss any significant detail², which can spoil all^P film. This hard work can not be done in a short term, so I would advise the film-makers⁰ not to hurry and pay a great attention to everything.

To sum up, I believe that making films from the books is very important nowadays because modern people tend to read less but they still watch a lot of TV^P. So, that is why^P, making and showing films on the TV² one can be introduced to the history and cultures of the world^P in a form of an entertainment, with without getting bored^{2.65}.
