Writing

Hello, I'm going to be writing about 22nd Century Fashion. As of now, it is 21st century and people are wearing normal clothes like jeans, hoodies, shorts, jackets and etc. But with each day style of clothes changes and the fashion makes clothes look cooler and better. Everyone buys new clothes and you can notice they look much more different than the clothes people used to wear in 90s.

I think that clothes in 22nd Century will look much more different than now, because fashion changes everyday. People want to look stylishly, cooler, more fitting with the city and other people.

I think clothes in 22nd century will be made out of better materials, have more prints and maybe they are going to glow because who knows what the fashion is gonna be.

In conclusion, I want to add that clothes are changing with each day and no one knows what they are going to look like in the future. Maybe they will make clothes very hard to get dirty or make them look good no matter what, because in future there might be a lot of materials to make clothes.
