### Writing

#### Screen version of the Airport.

In this article I am going to describe and to explain why Arthur Hailey's novel "Airport" should be turned into a film. What is more, I will depict some problems which filmmakers may challenge.

The plot of the novel is quite interesting. Snowstorm rushes onto the biggest American airport, that is why all the services work hardly. They have to deal with nasty weather and eternal problems. That is why filmmakers ought to encount both the place where action is happening and weather conditions, because heavy snow is a key piece of the plot.

There is no doubt that such interesting story has a great number of different characters. All of them have their own lives, they have their own problems, they all look alive. So, filmmakers must find best actors to create suitable for this film cast.

The plot is also full of different crucial events. For example, at the beginning of the story a food truck got lost in the snow storm. Another occasion is that the plain lost control, left the road and stuck in the muddy snow. A big amount of different cars, plains and other airport stuffs will be required in the film to make picture clother to the reality.

In conclusion I am going to say that the proses of creation this film will be quite difficult. Filmmakers must fully show the revenge of nature and humanity, of snow and modern technology. Moreover, I want to wish good luck to those, who will make this film. I hope it will be more interesting than the book.
