Too Many Toys?

Some parents think that they need to buy a lot of toys for their children. Sometimes it's good because the child can choose the toy. But it can be bad too.

Maybe child don't play with this toys. At home we always have a lot of ~~the~~ things that can be interested for him and ~~the~~ your child will played with them! ~~The toys aren't used.~~

Or your child ~~star~~ will ~~start~~ to want more and more toys. He will become jealous to other children and wanted more toys that they have.

It's can be good, when you can't play with your child and need that he played with himself.

In my opinion parents need to buy that toys with them child will played. If child can play with friend and they don't need toys to play - don't buy a lot.

When I was child small I don't ~~had~~ ^{idn} have a lot of toys because if weather is good I can spent all day in the street with other children.

And when I was at home I needed one-two the most loved toys.

Sometimes I wanted a new toys but I always playing with them after buying.

In conclusion, ^{ср. р.} buy that toys that child need. ~~If your child don't need a lot of toys - don't do it.~~
